

MULTIFUNCTIONAL TILE SPACERS

HIGH PRECISION

Ensure a consistent joint width.

FLAT SURFACE

Quickly and easily create a perfectly flat tile surface.

REUSABLE

Designed for long-lasting, repeated use.

FEATURES

Item	Multifunctional tile spacers
Material	Polypropylene
Application	I - X - T joints
Colour	White
Joint width	1 - 2 - 3 mm
Packaging	✓ 50 pcs ✓ 100 pcs

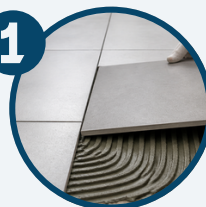

DESIGNED FOR PROFESSIONALS

Durable, efficient and reliable.

USE IN 3 STEPS

1

APPLY TILE ADHESIVE

Apply a sufficient amount of tile adhesive and position the first tile. Check that it is perfectly level.

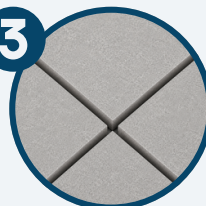

2

PLACE THE SPACER

Position the following tiles. Insert a spacer between the tile edges at every intersection of four tiles.

3

DRYING

Leave the spacers in place. Once the adhesive is almost fully cured, remove them from the joint using pliers.
