Colour	Transparent
Packaging	✓ 100 pcs
Compatible with	✓ LEVELIT system ✓ XL system ✓ XXL system ✓ HELIX system ✓ TILING BUDDY system

DESIGNED FOR PROFESSIONALS

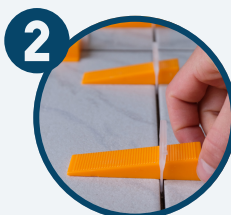

Durable, efficient and reliable.

HOW TO USE IN 4 STEPS

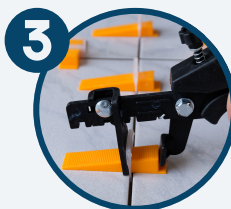

APPLY ADHESIVE

Apply enough tile adhesive and place the first tile. Make sure it is perfectly level.

INSERT THE CLIP

Slide the clip under the tile and press the tile into the adhesive. Position the next tile on the clip base. Then place an anti-scratch disc over the clip.

LEVEL THE TILES

Insert the wedge into the clip. Use the LEVELIT pliers or press the wedge firmly into the clip until the tiles are perfectly level.

REMOVE THE CLIP

Leave the wedges in place. Once the adhesive has almost fully cured, remove the clips by tapping them in the direction of the joint.
