HOW TO USE IN 4 STEPS

APPLY ADHESIVE

Apply enough tile adhesive and place the first tile. Make sure it is perfectly level.

INSERT CLIPS

Slide the clip(s) under the tile and press the tile into the adhesive. Place the next tile on the base of the clip(s).

LEVEL THE TILES

Insert the wedge into the clip. Use the LEVELIT plier or press the wedge firmly into the clip until the tiles are perfectly level.

REMOVE THE CLIPS

Leave the wedges in place. Once the adhesive has almost fully cured, remove the clips and wedges by tapping them in the direction of the joint.
