Packaging	✓ 100 pcs ✓ 250 pcs
Compatible with	✓ Anti-scratch disc ✓ Wedge separator

HOW TO USE IN 4 STEPS

1 APPLY ADHESIVE

Apply enough tile adhesive and place the first tile. Make sure it is perfectly level.

2 INSERT CLIPS

Slide the clip(s) under the tile and press the tile into the adhesive. Place the next tile on the base of the clip(s).

3 LEVEL THE TILES

Insert the wedge into the clip. Use the LEVELIT plier or press the wedge firmly into the clip until the tiles are perfectly level.

4 REMOVE THE CLIPS

Leave the wedges in place. Once the adhesive has almost fully cured, remove the clips and wedges by tapping them in the direction of the joint.
